

Plan Your Future, today.

**We all wish to have a secured financial future.
As time passes, it looks challenging and creates stress.**

If we start investing a small amount every month, we can achieve our targets comfortably.

**Presenting the concept of
SIP Today, SWP Tomorrow**

Systematic Investment Plan

- Systematic Investment Plan (SIP) allows investors to invest small amounts at regular intervals in an equity mutual fund as opposed to the need to invest a single large amount.
- It reduces cost of units due to rupee cost averaging.
- Helps maintain discipline during the investment journey.
- Can increase/decrease/pause/stop SIP at any time.

Systematic Withdrawal Plan

1. SWP can be considered as the opposite of SIP. In case of SWP, a fixed amount is transferred from your mutual fund portfolio to your bank account on a periodic basis.
2. It helps provide regular cash-flows to meet expenses during retirement years.

Convert Mutual Fund Units to Bank Balance
In a phased manner

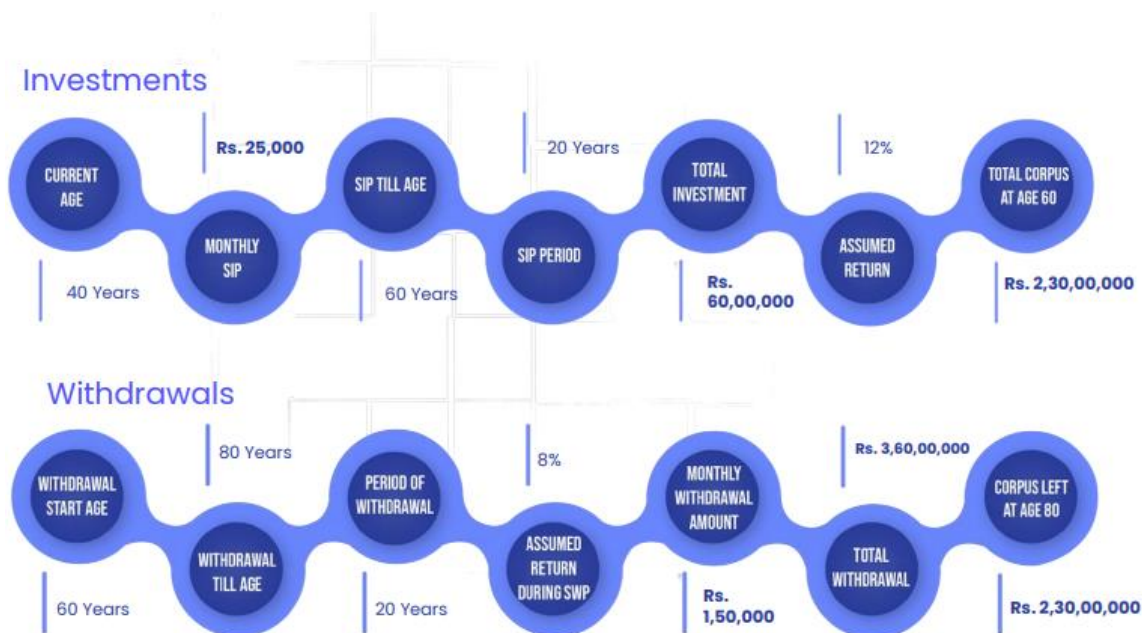

SIP Today, SWP Tomorrow

- Start an SIP today and let it grow.
- Decide a future date when you want to start withdrawals.
- Set-up your periodical withdrawals from the Corpus you have generated through SIP.
- You have the option to rebalance the portfolio into debt/balance/equity anytime as per your risk profile.

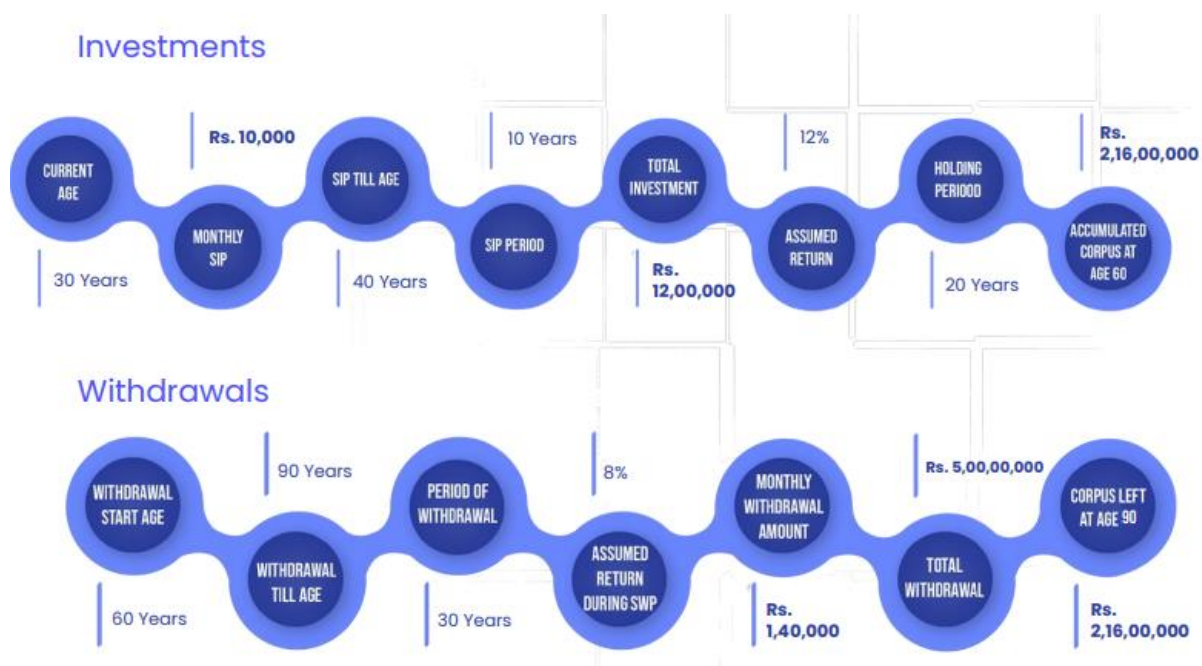

Example 1

* Returns are not guaranteed. Figures are approx.

* Mutual Funds are subject to market risks. Please read the offer documents carefully before investing.

Example 2

* Returns are not guaranteed. Figures are approx.

*Mutual Funds are subject to market risks. Please read the offer documents carefully before investing.
